Nuki Senzor za Vrata

NUKI DOOR SENSOR

Sa novim senzorom i Nuki aplikacijom možete stalno da pratite status vrata. Na ovaj način možete sa sigurnošću da znate da li su vrata bezbedno zatvorena i zaključana.

Low battery consumption

The Door Sensor and Smart Lock are extremely energy-efficient: The Nuki Door Sensor has a battery life of 2 years.

Here's how the Nuki Door Sensor works

1. Install the Nuki Door Sensor

The Nuki Door Sensor consists of a sensor and a magnet. The sensor is glued to the door frame. The magnet is attached to the door.

2. Set it up using the Nuki app

3. Connect via Bluetooth

4. View the door status in the app

5. Always in the know – alerts for open doors
