Smartwatch with microSIM

A smartwatch with microSIM keeps you in touch with your child at all times. Whether at school, on a class trip or an extra-curricular activity – the watch allows you to make calls without having to buy a phone. **The Forever Call Me 2 KW-60 smartwatch also features the ability to receive and send voice messages.** The watch's interface is tailored to the little ones, so operating the chat is… child's play.

Thanks to the convenient phone book, your child does not have to memorise the numbers of his or her loved ones. In exceptional cases, saved contacts will allow them to alert the appropriate people. **When the child uses the SOS button, the smartwatch with microSIM will start calling predefined numbers.** Call attempts will loop until someone answers the phone.

Smartwatch with locator

Thanks to advanced technology, you don't have to worry about your child's safety. A smartwatch with a locator will watch over him or her 24 hours a day. A watch with LBS will determine **the area your child is in.** This zone will be visible in the application. You can also activate the watch's camera or microphone from your phone. As you can see, a smartwatch is much more than just another gadget for kids.

Forever Call Me 2 for trips

An electronic watch will come in handy not only at school but also on longer trips. The Forever Call Me 2 smartwatch has a 400mAh battery. This means **it will last up to 3 days without charging.** The watch is also equipped with a torch. It will serve as additional lighting during night expeditions.

For girls and for boys

The main purpose of a smart watch is to provide security. However, the device should not only appeal to parents, but also their children. The Forever Call Me 2 KW-60 smartwatch is a **fashionable complement to children's styling**. The watch is available in two colour versions that will appeal to both girls and boys.

The touch screen was designed with the little ones in mind. Simple messages and colourful icons make it easy to use, while a built-in maths game keeps children extra entertained.
